THE APOTHECARY DIARIES

Synopsis:

Maomao, an apothecary's daughter, has been plucked from her peaceful life and sold to the lowest echelons of the imperial court. Now merely a maid, Maomao settles into her new mundane life and hides her extensive knowledge of medicine in order to avoid any unwanted attention. Not long after Maomao's arrival, the emperor's infant children inexplicably begin to experience grave symptoms—almost as if a curse has been cast. The curious Maomao easily solves the mystery and, to remain out of the limelight, attempts to leave an anonymous tip. Unfortunately, the dashing and perceptive eunuch Jinshi sees through it and manages to single her out.
